

## Lion10 光纤制导FPV

光纤制导FPV具有高速、稳定和低延迟的信号传输特点，更加精准的接收指令和传输数据，能够大大降低信号受到干扰的可能性，提高穿越机的飞行安全性和可靠性。

最大起飞重量	8kg
有效载荷	1.6kg
最大飞行速度：	60km/h
最大飞行高度：	3km
光纤通讯距离：	3km (光纤长度可选)
最大续航时间：	30 分钟
抗风等级	5 级

# ***Lion10 Optical Fiber Guided FPV***

Optical Fiber guided FPV has the characteristics of high-speed, stable and low delay signal transmission, more accurate receiving instructions and data transmission, which can greatly reduce the possibility of signal interference, and improve the flight safety and reliability.

<b>Maximum take-off weight</b>	<b>8kg</b>
<b>Payload</b>	<b>1.6kg</b>
<b>Maximum flying speed</b>	<b>60km/h</b>
<b>Maximum flight altitude</b>	<b>3km</b>
<b>Fiber communication distance</b>	<b>3km(Opticalfiber length)</b>
<b>Maximum battery life</b>	<b>30min</b>
<b>Wind resistance class</b>	<b>5 level</b>
